OIL OF TANNIN, OR LEATHER RESTORER.

A NEW CHEMICAL DISCOVERY.
Most people know that skins and hides are conveited into leather by the use of Tannin, extracted from certain barks, &c.

When the force and strength of the Tannin is worn out, leather becomes dead, hard, dry, brittle, cracked,

out, leather becomes dead, hard, dry, brittle, cracked covered with a crust, &c. This all know. To reout, leather becomes dead, hard, dry, brittle, cracked, covered with a crust, &c. This all, know. To restore then, life, softness, moistness, strength, smoothness, and remove all crust, fly, or blister—restore the tansin. This substance the leather never can receive the second time; but the whole virtues of it are in this article—THE OIL OF TANNIN; which penetrates the stiffest and hardest leather, if it has been twenty years in use; and if it tests easily with the fingers, it imparts at once a strength that is utterly incredible until seen. It becomes like new leather, in all respects, with a delightful softness and poish, and makes all leather completely and perfectly impervious to water—particularly boots, shoes, carriage tops, hances, hose, trunks, and in fact all things made of leather, giving a splendid polish, even higher than new leather has, and at feast doubling it wear and durability, in whatever manner the leather is used. THYSE ARE FACTS.

Those who will may wear old shoes, groan with cons, ride with old carriage tops—have old harness and throw them away half used—lo. & fifthy themselves and all about them—expend double what is necessary for articles of leather to their hearts' content, for what we care, if their prejudices are so strong, they will not try a new discovery. We have of worst ask of them, they are the greatest sufferers.

Each proposal must be signed by the individual or firm making it, and must specify a price, and but one price, for each and every article contained in the schedule. Should any articles be required not enumerated, they are to be furnished at the lowest market prices, according to quality. Blank forms for schedule. Sound any articles be required not enumerated, they are to be furnished at the lowest market prices, according to quality. Blank forms for
proposals will be furnished at the Department to
persons applying for them, and as, without uniformi
ty therein, the Department would find it difficult to
make a decision, none will be taken into consideration unless substantially agreeing therewith.

The proposals to be addressed to "the Department of State," and endorsed "Proposals for Stationery." Notice will be given to the person to
whom the contract is awarded, who will be required
within five days thereafter to give bond, with two
sufficient sureties for its performance.

The Head of the Department is in all cases to decide whether the terms of the contract have been
compiled with, and to reject any article which may
be, in his opinion, of inferior quality, as well as to
annul the contract upon any failure to comply with
the terms within a reasonable time.

PROPOSALS will also be received during the same period, and subject to the same conditions, for the execution of such job printing as may be required by the Department for one year from the 1st July, 1844, consisting of—

immediately on their arrival at Albany, by the steamboats John Mason and Jonas C. Heart, and landed at Troy.

Stages and steamboats run every haif hour to and from Troy and Albany, and to suit the arrival and departure of the cares.

Passengers going north of the Springs, will find stages to convey them to Lake George, Whitehall, and intermediate places, connecting with all the principal Northern and Eastern routes. Either of the runs will take passengers in time to reach the Lake

Champlain boat.
